About Averon

Averon Overseas is a sourcing and supply company for pharmaceutical primary packaging and raw materials. We connect pharma manufacturers and brand owners with qualified manufacturing partners, with clear specifications and documents shared on request.

Vision

To be the trusted single-source partner for pharmaceutical packaging and raw-material sourcing.

Mission

Simplify global sourcing with clear specifications and honest communication.
Keep documentation and supply coordination transparent from enquiry to delivery.

WHY CHOOSE AVERON

One partner for packaging and raw materials

Specification-led sourcing

Custom sizes, colours and printing on request

Documents (CoA, TDS, SDS) shared on request

Responsive, flexible order support

EXPLORE OUR RANGE

Injectables

Syrups & Oral

Closures

Blister & Films

Dosing

Raw Materials

Injectables

VIALS AND AMPOULES

Neutral Type I borosilicate glass, available in clear and amber. Standard sizes from 2R through 100R, suitable for all parenteral preparations including injectables, biologics and lyophilised products.

GLASS VIALS

GLASS AMPOULES

Type I neutral borosilicate glass ampoules for single-dose injectables. Available in 1ml to 25ml, clear or amber, with OPC (One-Point Cut) or CBR (Color Break Ring) opening systems.

GLASS TYPE CHOICES

Type I - highest hydrolytic resistance for injectables and biologics

Type II - treated glass for less demanding aqueous products

Type III - general-purpose glass for selected non-parenteral products

FLIP-OFF SEALS

Aluminium crimp seals with polypropylene flip-off button. Available in 8mm, 13mm, 20mm and 32mm to match vial neck finish. Supplied in a wide range of standard colours or custom matched.

RUBBER STOPPERS

Bromobutyl, chlorobutyl and fluoro-laminated (ETFE) stoppers in serum, lyophilisation and antibiotic designs. Available in 13mm and 20mm, supplied RTU or RTS.

Bromobutyl — for biologics and vaccines

Chlorobutyl — for acidic injectables and insulin

Butyl — for general use

Fluoro-laminated (ETFE film) — for sensitive, high-potency drugs

Syrups, Bottles and Plastic Containers

A complete range of primary packaging solutions for liquid, solid and topical pharmaceutical products.

GLASS BOTTLES

Amber and flint pharmaceutical glass bottles for oral liquid preparations. Available in sizes from 30ml to 500ml with DIN neck finish compatible with ROPP, pilfer-proof and CRC closures.

PET BOTTLES

Pharmaceutical-grade PET bottles in clear and amber, available in 60ml to 1000ml. Suitable for syrups, suspensions and oral solutions. Compatible with tamper-evident and CRC closures.

PLASTIC CONTAINERS

HDPE jars and bottles from 30 ml to 1000 ml for tablets, capsules and powders.

LDPE CONTAINERS

LDPE squeeze and dropper bottles from 5 ml to 500 ml for eye, nasal and topical products.

Blister Films

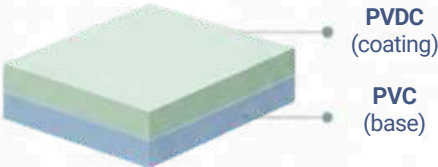

Rigid PVC film for blister packing, in clear and coloured shades, from 100 to 600 microns and widths up to 1360 mm, on rotary and flatbed machines. PVDC coating adds moisture and gas barrier for sensitive products. Triplex combines PVC, PE and PVDC for tropical markets.

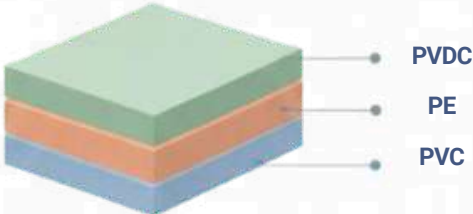

PVC Mono — single PVC layer

PVC/PVDC Duplex — PVC base plus PVDC coating

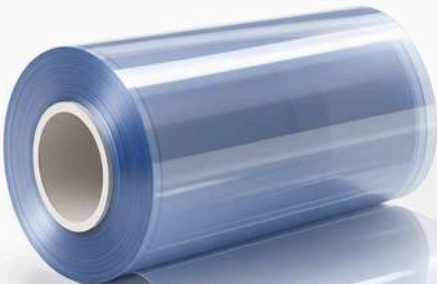

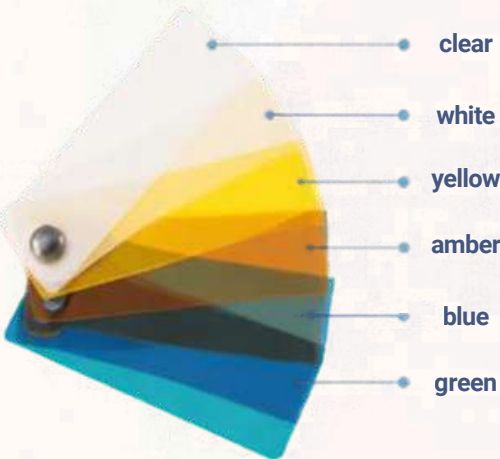

Triplex — PVC, PE, PVDC

Aluminium Lid & Specialty Foils

Blister lid foil (20/25/30µm aluminium), Tropical foil with oPA outer layer for high-humidity Zone III/IV markets, Strip foil (ALU/LDPE) and Cold-Form base film. All supplied on rolls with 76mm inner core.

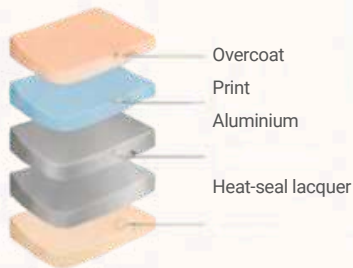

Available Colours

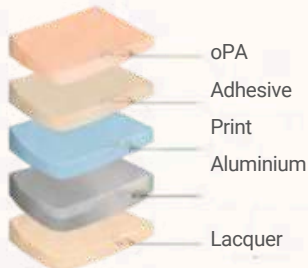

FOILS, COLD FORMING AND FLEXIBLE LAMINATES

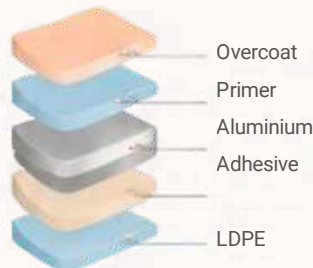

Blister foil –
overcoat, print,
aluminium, heat-seal lacquer

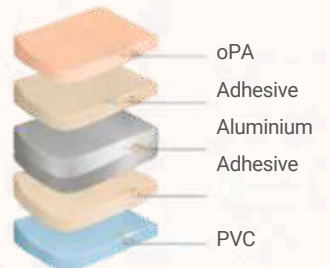

Tropical foil –
oPA, adhesive, print,
aluminium, lacquer

Strip foil –
overcoat, primer,
aluminium, adhesive, LDPE

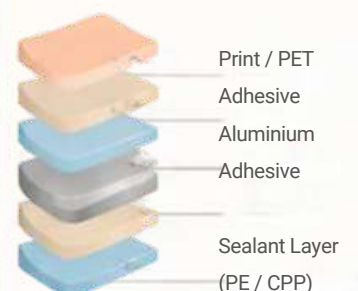

Cold-forming film –
oPA, adhesive, aluminium,
adhesive, PVC

FLEXIBLE LAMINATES

Multi-layer flexible laminates for sachets, pouches and strip packs. Structures available include PVC/PE, BOPP/ALU/PE, PET/ALU/PE and other custom configurations for powders, granules and liquids.

Dosing & Dispensing

Complete rubber dropper assemblies (rubber teat + glass tube + PP cap) for ophthalmic, ENT and oral preparations. Glass dropper bottles in Type I borosilicate glass, available in 5ml to 30ml in amber and flint (clear).

Available from 1ml to 20ml with printed and embossed graduation scales. Translucent PP barrel in multiple colours for paediatric use. Non-Luer oral tip prevents IV misconnection. Supplied bulk or individually FFS-sealed.

Measuring cups in 5ml, 10ml, 15ml, 30ml, 60ml with printed or embossed multi-color scales. Calibrated dosing spoons in 2.5ml, 5ml and 10ml. All manufactured in food-grade PP, phthalate-free and BPA-free.

Closures & Caps

ALUMINIUM ROPP CAPS

Roll-on pilfer-proof aluminium closures for glass syrup bottles, in 18mm, 20mm, 22mm, 25mm and 28mm. EPE, SARAN, TIN SARAN liner options.

PLASTIC CAPS

PP and HDPE plastic closures including plain screw caps, child-resistant (CRC), tamper-evident and pilfer-proof variants. Sizes from 18mm to 38mm to match all standard pharmaceutical bottle neck finishes.

Tamper-Evident & Pilfer-Proof

Frangible tear-band or bridge that separates on first opening. Available in 18mm to 38mm in PP and HDPE, with optional colour-coding and printing.

Plain Screw Caps

Standard PP and HDPE screw closures in all common neck finishes. Available with or without liner, in white and custom colours.

CRC

Press-down-and-turn, squeeze-and-turn, squeeze-and-pull and Rim-Snap mechanisms.

Available in 22mm, 25mm, 28mm, 33mm and 38mm. Two-piece and single-piece designs.

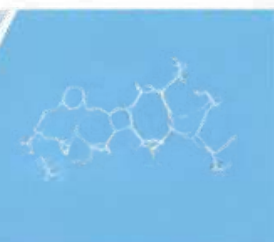

Pharma Raw Materials:

APIs

APIs and excipients from qualified manufacturing partners in BP, USP, EP and IP grades; CoA, TDS and SDS shared on request.

Therapeutic category	Examples
Anti-infective	Amoxicillin, Azithromycin, Ciprofloxacin HCl, Clarithromycin, Doxycycline, Levofloxacin, Metronidazole, Cefuroxime Axetil, Linezolid
Anti-inflammatory/analgesic	Diclofenac Sodium, Ibuprofen, Aceclofenac, Mefenamic Acid, Paracetamol DC 90 and DC 96, Naproxen, Etoricoxib
Cardiovascular	Amlodipine Besylate, Atorvastatin Calcium, Clopidogrel, Losartan Potassium, Telmisartan, Rosuvastatin Calcium, Valsartan, Rivaroxaban
Anti-diabetic	Methormin HCl, Glimepiride, Gliclazide, Sitagliptin, Vildagliitin, Dapagliflozin
Anti-ulcer/GI	Omeprazole, Esomeprazole Pellets, Pantoprazole, Rabeprazole, Domperidone, Ondansetron
Antihistamine/respiratory	Cetirizine, Fexofenadine, Desloratadine, Levocetirizine, Ambroxol HCl, Salbutamol
Antifungal	Fluconazole, Itraconazole, Ketoconazole, Voriconazole
Steroids	Dexamethasone, Prednisolone, Budesonide, Clobetasol Propionate
CNS (non-controlled)	Gabapentin, Pregabalin, Levetirecetam, Lamotrigine, Escitalopram, Sertraline, Venlafaxine pellets
Anthelmintic/antimalarial	Albendazole, Melendazole, Praziquantel, Quinine Sulphate, Chloroquine Phosphate

Excipients, Vitamins & Chemicals

Category	Examples
Binders & fillers	Microcrystalline Cellulose, HPMC, Lactose Monohydrate, Di-Calcium Phosphate, Mannitol, Povidone K-30
Disintegrants	Sodium Starch Glycolate, Croscarmellose Sodium, Crospowidone
Lubricants & glidants	Magnesium Stearate, Talc, Colloidal Silicon Dioxide, PEG 4000/6000
Film coating	HPMC, Ethyl Cellulose, Eudragit grades, Titanium Dioxide
Preservatives	Sodium Methyl Paraben, Sodium Benzoate, Benzalkonium Chloride
Sweeteners & flavours	Aspartame, Sodium Saccharin, Sucralose, Menthol Crystal, Liquorice extract, Lemon flake
Vitamins & minerals	Ascorbic Acid, Folic Acid, Nicotinamide, Mecobalamin, Ferric Ammonium Citrate, Iron-III Polymaltose Complex, Calcium Carbonate, Zinc Sulphate Heptahydrate, L-Lysine HCl
Chemicals	Citric Acid Anhydrous, Sodium Citrate, Sodium Bicarbonate, Glycerine, Propylene Glycol, Simethicone

Grades BP, USP, EP IP as required. Many more products are available through our manufacturing partners. Documentation (CoA, TDS, SDS) is shared on request. Specifications shown are indicative, final specifications are confirmed with the supplier at order stage. Products subject to controlled-substance regulations are not listed and are supplied only to licensed buyers, subject to applicable law.
